Abstract

I'm an agricultural engineer, I'm studying systems analyst degree and improving my conversational English. I have a great passion for technology, mainly with a focus on Frontend developer stacks. Currently I work part-time as a web developer for freelance projects in a team with a graphic designer. My goal, for this 2022, is to find a job as a Frontend Dev.

Web Development experience

2022 - Actualidad

Other work experiences

2019 – 2020

Owner of a video game and computer equipment store

- "TU CASA GAMER" located in Bragado, Buenos Aires. After many years I was able to open my store selling video games and renting game consoles. Some time after it opened, I decided to close for personal, work and cost reduction reasons due to the pandemic.

2015 – 2018

Technical service and video games selling

- Software technical service for various consoles: Nintendo 3ds, Wii, WiiU, Nintendo Switch, PS3.
- Freelance sale and resale of video games and consoles.

2014 – 2017

Sale of photocopies and supplies for photocopiers

- Wholesale and retail of photocopies. I set up the business in my house and distributed to locals and schools
- Sale of toner and occasional spare parts for photocopiers and printers.

2010 – 2013

Cadet

- My first job while advancing with my studies as an agricultural engineer.
- Telephone and personal attention to clients, rent collections, cadet and showing properties for rent or for sale to prospects.
